Dear Harry,

It has been about two months since you installed your Info-Organiser software in our office. During this time we have had absolutely no trouble with it and have found it simple and easy to implement within the office.

It took a little time for all the staff to change their old habits and the way they filed documents. Now they electronically file documents and retrieve as a second nature.

All our incoming mail is viewed, filed and dealt with usually by the end of the same day it arrives in our office.

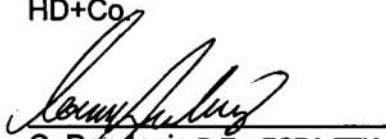

We are able to email documents to Banks and other Financial Institutions instantly if the electronic file exists or within a few minutes of scanning a paper document.

All our telephone messages have typed notes and filed electronically immediately making easy for everyone to locate and read.

Telephone enquires from clients are handled much quicker as we can access the clients file without leaving our desk.

Thank you for a fantastic product.

Yours sincerely,  
HD+Co
