Dear Harry,

We implemented the Info-Organiser Document Management Solution in late 2003 and have been more than completely satisfied with the total solution provided to our company.

Our entire organisation is now able to access documents within seconds. During a recent meeting, I was able to find a file in Info-Organiser using my computer, faster than my client could find the same file in his briefcase. The client was suitably impressed!

Your scanning bureau service proved to be a cost effective and efficient method to deal with the electronic archiving of our historical files. From collecting the boxes, to scanning and indexing, to the ultimate secure destruction of our paper files, we have found your company to be professional at all times.

We have since been able to remove our filing shelves and free up valuable floor space for our growing staff requirements. Our files are now safer, quickly accessible and our costs significantly reduced thanks to Info-Organiser. Your staff are refreshingly friendly and professional at all times and have been a pleasure to deal with.

I enthusiastically recommend Info-Organiser to any accountancy firm or other paper reliant business.

Yours sincerely
